Subject: ESCO Corporation's correspondence regarding the Portland Harbor public comment period

Dear Ms. Jones-McKeown:

Thank you for your recent correspondence on behalf of ESCO Corporation and request for a 120-day public comment period on the Portland Harbor Superfund Site Proposed Plan and supporting analysis and information. In addition to your request, EPA has received other requests from the public for more than the 30-day mandatory public comment period provided for by the National Contingency Plan at 40 CFR Section 300.430(f)(3)(i)(C). Given the extension requests received, EPA decided to provide the required extension of an additional 30 days so that the public comment period will be no less than 60 days. EPA may decide to provide more than 60 days after the public comment period begins if, in its discretion, the agency determines that additional time is appropriate.
